Learning Experience

Education

Graphic Design (2016 - present)

- Self-learning Graphic Design via online courses
 - Completed various online courses on graphic design, including courses on Adobe Creative Suite (Photoshop, Illustrator, and After Effects), typography, color theory, and composition.
 - I participated in online design communities to receive feedback and improve my design skills.

Technician Diploma

- Building Draftsman Technician
 - Specialized Institute of Applied Technology – OFPPT SIDI KACEM

Work

Freelance Graphic Designer (2017 - Present)

- I have worked with +2k clients from small businesses to large corporations, to create unique and impactful designs.
 - Designed high-quality visual content across different media platforms.
 - Designed various character designs for clients in the entertainment industry.
 - Created engaging and impactful motion graphics for clients in advertising and social media campaigns.
 - Produced creative and professional logo designs and branding materials for companies in various industries.
 - Designed visually appealing print materials such as brochures, flyers, and business cards for clients in different fields.
 - Designed user-friendly interfaces and interactive designs for websites and mobile apps.
 - Developed compelling social media designs for clients across different social media platforms.
